Department of Health and Mental Hygiene Overview

The Department of Health and Mental Hygiene (DOHMH or the Department) protects and promotes the health and mental well-being of all New Yorkers. The Department provides mental health services; mental retardation and developmental disability services; alcohol and drug use services; and Early Intervention services to developmentally delayed infants and toddlers. The DOHMH's community-based services include: District Public Health Offices; five borough-based Early Intervention offices; three year-round immunization walk-in clinics; five Tuberculosis (TB)/chest centers; nine Sexually Transmitted Disease (STD) clinics; HIV prevention and control services; health services at more than 1,500 schools; and health and mental hygiene services in the City's correctional facilities. DOHMH has programs to prevent and control chronic diseases such as heart disease, diabetes, asthma and cancer. The Department has also made reducing tobacco-related illnesses a priority. DOHMH generates community health profiles; issues birth and death certificates; conducts health and safety inspections to enforce the City Health Code; and protects public safety through immediate response to emergent public health threats.

This report provides a review of the Fiscal 2016 Preliminary Budget for the Department of Health and Mental Hygiene. In the first section, the highlights of the Fiscal 2016 expense budget are presented, along with a discussion of proposed new spending, funding shifts, relevant state budget actions and Fiscal 2015 Council restorations and initiatives.

The report then presents and analyses the Department's budget by program area; discusses actions included in the November and Preliminary Financial Plans; and reviews relevant sections of the Preliminary Mayor's Management Report for Fiscal 2015.

Finally, a review of the proposed capital budget for the Department with a discussion of significant changes proposed to the Capital Plan and the Department's ten year capital strategy are presented. Please note there are separate reports covering the DOHMH's budget as it pertains to mental hygiene and medical examiner functions.

Fiscal 2016 Preliminary Plan Highlights

DOHMH Total	\$1,505,970	\$1,423,185	\$1,400,441	\$1,515,159	\$1,447,470	\$47,029

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

DOHMH's Fiscal 2016 Preliminary Budget includes \$1.45 billion in spending, which has increased by \$47 million, or three percent, when compared to the Fiscal 2015 Adopted Budget. The

Department's overall operating budget for Fiscal 2016 is split into 27 percent for personal services (PS) and 73 percent for other than personal services (OTPS).

The Fiscal 2016 Preliminary Budget for DOHMH includes \$28.6 million in total new needs, which includes new spending first proposed in the November and Preliminary Financial Plans. Other adjustments introduced since the Fiscal 2015 Budget was adopted total \$42.9 million for DOHMH. The changes made to the Department's budget during the course of Fiscal 2015 are summarized in Appendix B. Other changes contributing to total proposed increased spending in Fiscal 2016 for the Department include, but are not limited to, fluctuations in non-City grant funding, collective bargaining, federal grant realignments and other technical adjustments.

The key actions affecting the Department's proposed public health budget include the following new needs:

- **Animal Care & Control (AC&C) Fundraising.** The Preliminary Plan includes \$258,000 in Fiscal 2015 and Fiscal 2016 for the Animal Care & Control to hire one development staff who will work to secure funds from private donors, special events, grants and other sources of fundraising. (See page 18 for more details.)
- **Child Care Enhanced Oversight.** The Preliminary Plan includes \$656,000 in Fiscal 2016 and the outyears to increase oversight of low-performing group child care sites that have issues with violations and other needs. DOHMH will focus on approximately 800 programs out of 2,200 licensed providers, and will add twelve positions to conduct this work. (See page 18 for more details.)
- **Child Health Surveillance.** The Preliminary Plan includes \$1.1 million in Fiscal 2016 and outyears to support an annual child health survey which will enhance the Department's capacity to monitor and evaluate trends in child health risk factors and outcomes. (See page 20 for more details.)
- **Discharge Planning.** The Preliminary Plan includes \$2.26 million in Fiscal 2016 for staff to aid in the discharge planning for individuals leaving Rikers Island. With this funding, DOHMH will add 28 new positions such as a program director, social workers, health educators and others to aid in supporting inmates departing correctional facilities. (See page 22 for more details.)
- **Ebola Rapid Response.** The Preliminary Plan includes \$1.4 million in Fiscal 2016 and the outyears for a dedicated team of professionals at DOHMH that will be available to assist during any public infectious disease outbreak. In terms of staffing, this funding adds six community outreach position, four epidemiologists and three staff positions in the public health laboratory. (See page 12 for more details.)
- **Enhanced Supervision Housing.** The Preliminary Plan includes \$3.8 million in Fiscal 2016 and in the outyears for health and mental health staff in new housing units at Rikers Island. (See page 22 for more details.)
- **Health Clinic Expansion.** The Preliminary Plan includes \$8.2 million in Fiscal 2015 and \$8 million in Fiscal 2016 for the planning and financial support for new community-based health clinics. (See page 25 for more details.)

- **Pre-Arrest Screening.** The Preliminary Plan includes \$418,000 in Fiscal 2016 and in the outyears to facilitate the screening for health and mental health needs for individuals arraigned in Central Booking in Manhattan. (See page 23 for more details.)
- **Post Emergency Canvassing Operation (PECO).** The Preliminary Plan includes \$3.9 million in Fiscal 2016 and \$2.5 million in the outyears to cover incident management teams and outreach/preparedness material. This funding is a result of a settlement reached by the City in October 2014 in a lawsuit regarding the City's deficiency in providing adequate services and shelters to people with disabilities. (See page 16 for more details.)
- **Language Development Campaign.** The Preliminary Plan includes \$1 million in Fiscal 2016 and in the outyears for a media campaign to encourage parents of young children to talk, read, and sing to their babies in order to promote brain development. (See page 27 for more details.)
- **Small Business First.** The Preliminary Plan includes \$468,000 in Fiscal 2016 and \$122,000 in the outyears to implement initiatives to improve the regulatory environment for small business. (See page 18 for more details.)

In addition to the above new needs, other key actions affecting the DOHMH's proposed budget include:

- **Collective Bargaining.** The Preliminary Plan includes \$11.3 million in Fiscal 2016 for collective bargaining agreements. This includes settlements with the major unions – District Council 37, SEIU Local 300, 1199 SEIU and Local 237.
- **Revenue Offset.** The Preliminary Plan includes \$2.9 million in Fiscal 2016 and in the outyears in DOHMH as a result of the reassessment of State's revenue offset, a long-standing allowance that reduced the amount of local revenue a county had to subtract from its state aid claims. Due to the elimination of this practice, the City's Health Department was projected to lose \$5.4 million in State aid in Fiscal 2015 and this adjustment reduces that amount to \$2.5 million.

*Continuation from previous page

The financial table shows DOHMH's budget by program area. Altogether DOHMH's budget has 37 program areas and 19 units of appropriation (U/A). For this report, similar program areas are combined. The crosswalk in Appendix B reconciles these program areas with the corresponding U/A.

The Department's Fiscal 2016 Preliminary Budget includes \$1.4 billion in spending for public health, mental hygiene, medical examiner services and general administration. City tax-levy (CTL) dollars account for 48 percent of all agency revenue. State aid and federal grants comprise 32 percent and 20 percent of all other revenues, respectively.

The Department's overall operating budget for Fiscal 2016 has increased by \$47 million or three percent when compared to the operating budget at Adoption last year. While the Department's total increased Department spending for Fiscal 2016 is \$47 million, the General Administration budget increases by \$5 million. Public health spending comprises 51 percent of the DOHMH's Fiscal 2016 Preliminary Budget. The balance of the Department's spending is split among mental hygiene, general administration and medical examiner functions, accounting for 38 percent, seven and four percent of total Department spending for Fiscal 2016, respectively.

Funding Sources

City tax-levy accounts for slightly over half of public health (non-administration) spending. Federal funds are the second largest source, comprising about 32 percent of the Department's public health budget. These particular funds are typically allocated to the Department in the form of a conditional/categorical block grant and can only be used for a specific purpose, as directed by the federal government. State aid accounts for 13 percent of the Department's public health revenue, with a majority of funds allocated to the City via the State's public health local assistance provision (commonly referred to as "Article 6 matching grants"). Article 6 of the State's Public Health law offers matching aid to localities (usually at a rate of 36 percent) for the local provision of specified public health services. Due to the matching nature of these grants, this form of state aid fluctuates with changes in CTL, whereas federal grants tend to remain unaffected.

Personal and Other than Personal Services

For the most part, public health spending appears to be fairly closely split between personal service (PS) and other than personal service (OTPS) expenses, at 40 percent and 60 percent, respectively. Given the breadth of services covered by the DOHMH, some tend to be more staff-intensive than others. For example, most of the activities associated with the Environmental Health program area, including environmental hazard surveillance and inspections of child care facilities and food service establishments, require an internal staff of credentialed public health inspectors/sanitarians. In other cases, such as Disease Control and Treatment for HIV/AIDS, many of these services tend to be contracted out to local community-based organizations and health providers who have the requisite expertise and capacity to meet performance guidelines.

Headcount

The DOHMH's budgeted headcount of 4,866 full-time positions in Fiscal 2016 reflects a nearly two percent increase in total headcount budgeted since adoption. In the DOHMH's Fiscal 2016 Preliminary Budget, 267 positions are being added while 187 positions are being eliminated, providing for a net increase of 80 full-time positions. The majority of these newly added positions will be dedicated to Emergency Preparedness and Response. More details about the headcount increase will be outlined in the appropriate program budget area.

A total of 62 percent of the DOHMH's workforce is dedicated toward public health, non-medical examiner functions, with most staff split among Disease Prevention and Treatment or Environmental Health functions. General administration staff comprises 11 percent of the Department's workforce. Since the Department's Division of Mental Hygiene's primary function is to contract out local mental health services, its combined workforce of 674 staff is relatively low (14 percent of total Department headcount) when compared with the headcount allocated to the Department's public health functions. The medical examiner's staff of 641 full-time positions represents nearly 13 percent of the Department's total Fiscal 2016 proposed headcount.

Contract Budget

DOHMH Fiscal 2016 Preliminary Contract Budget					
Category	Number of Contracts	Fiscal 2015 Adopted	Number of Contracts	Fiscal 2016 Preliminary	Difference 2015 - 2016

Special Clinical Services - Veterinary	1	12,720,801	1	12,953,301	232,500
TOTAL	1,319	\$802,742,42	1,319	\$829,647,06	\$26,904,641

The City's Contract Budget totals \$12.42 billion in Fiscal 2016, an increase of \$437.8 million or 3.65 percent when compared to the Fiscal 2015 Adopted Budget of \$11.98 billion. For DOHMH, the Contract Budget for Fiscal 2016 is approximately \$829.6 million, an increase of \$26.9 million when compared to the budget at Fiscal 2015 adoption.

Council Initiatives and Funding

City Council discretionary funding provides approximately \$9 million, or less than one percent of the Department's Fiscal 2015 Budget. This includes over \$5.4 million in initiative funding (\$2.9 million for public health services and \$2.5 million for mental health services) and local initiative items that total approximately \$3.6 million, which supports a combination of public and mental health services.

Just as with mental health, the City Council has been a champion of public health services, continuing its support of anti-gun violence community based programs, HIV/AIDS communities of color services, infant mortality reduction programs, as well as a wide range of other public health-related services. It is important to note that four of these Council initiatives: Anti-Gun Violence, Callen Lorde Health Center, HIV/AIDS Communities of Color, and Infant Mortality, are

enhancements to all of these services that have been baselined in DOHMH’s budget. In addition, the Council funded one new initiative to address the incidence of Hepatitis B/C.

It is important to note that because the City Council’s changes to the budget are for one year only, funding for initiatives in Fiscal 2015 are not included in the Fiscal 2016 Preliminary Budget.

FY 2015 Council Changes at Adoption	
<i>Dollars in Thousands</i>	
DOHMH, Council Public Health Initiatives	
Anti-Gun Violence Initiative - Community-Based Programs	\$1,592
Callen Lorde Health Center	150
Hepatitis B/C Initiative*	750
HIV/AIDS - Communities of Color *	100
Infant Mortality*	300
Subtotal, Council Public Health Initiatives	\$2,892
Council Mental Hygiene Initiatives	\$2,545
Council Local Initiatives	\$3,576
TOTAL, DOHMH, Public Health	\$9,013

* City tax- levy dollars for these services may be eligible for a state match.

Baselined Council Initiatives

In Fiscal 2014, the Bloomberg Administration baselined funding for Council initiatives that supported hundreds of programs operated by community-based organizations throughout the City. The Council and the Administration worked together to ensure that those organizations received one-year contract extensions through Negotiated Acquisition Extensions (NAE); ensuring the continuity of vital services from Fiscal 2014 to Fiscal 2015.

For Fiscal 2016, many of the baselined initiatives will be formally procured through a competitive process. It is important to note that for DOHMH programs, the Request for Proposals (RFPs) are scheduled to be released in spring 2015 (between April 1, 2015 and May 15, 2015).

Fiscal 2015-2016 State Executive Budget Highlights

The Fiscal 2015-2016 State Executive Budget was released on January 21, 2015. The Executive Budget continues to build upon the Medicaid reforms of the Medicaid Redesign Team that aim to achieve higher quality of health services at a more sustainable cost. Below are some provisions included in the Executive Budget that may impact New York City.

- **New York State Health Benefit Exchange.** The Executive Budget includes a proposal that will levy a tax on insurance premiums in order to fund the New York State health exchange, created by the Affordable Care Act. The Executive Budget proposes \$388.4 million in State support for the New York State of Health and includes a new 0.375 percent assessment on health insurance plans to support \$68.9 million in operating costs of the health exchange.
- **Restructure Public Health Care Program Funding.** The Executive proposes to consolidate 41 separate public health programs into five pools and to reduce total funding for these programs by \$21.31 million. This proposal failed to be enacted in past fiscal years.

Program Areas

Disease Prevention & Treatment – HIV/AIDS

The Department's Bureau of HIV/AIDS aims to control the HIV epidemic and minimize its impact on New Yorkers by preventing new HIV infections. The Department promotes HIV testing, monitors trends in the HIV epidemic through surveillance for HIV/AIDS, allocates prevention resources within the DOHMH and the community to those populations at greatest need and promotes access to medical care, treatment, and support of HIV infected persons. The Bureau participates in community planning through the New York City HIV Prevention Planning Group and the HIV Planning Council and oversees contracts for HIV prevention, care and housing in New York City. New York City remains the epicenter of HIV/AIDS in the U.S. More than 110,000 New Yorkers are living with HIV, but thousands more don't know they're infected. New York City's AIDS case rate is almost three times the U.S. average, and HIV is the third leading cause of death for New York City residents aged 35 to 54.

*The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.

The Fiscal 2016 Preliminary Budget for HIV/AIDS Disease Prevention and Treatment is \$180.3 million, representing an increase of \$12.8 million or six percent from the Fiscal 2015 Adopted Budget. The Fiscal 2016 Preliminary Budget for HIV/AIDS prevention and treatment services represents nearly 13 percent of the Department's overall proposed spending. The increase in funding is primarily driven by a realignment of federal grants across the Financial Plan to better reflect actual awards. Budgeted grants increased in Fiscal 2016 and they include \$4 million for HIV

prevention work, \$10.4 million for the Housing Opportunities for Persons with AIDS (HOPWA) Program, \$524,000 for AIDS/HIV surveillance, and \$1.4 million from the Substance Abuse and Mental Health Services Administration (SAMHSA). Funding from SAMHSA is targeted towards the Targeted Capacity Expansion (TCE) Program: Substance Abuse Treatment for Racial/Ethnic Minority Populations at High Risk for HIV/AIDS (TCE-HIV), which addresses the intersection of HIV and substance use treatment services.

Performance Measures

Performance Indicators	Actual			Target		4-Month Actual	
	FY12	FY13	FY14	FY15	FY16	FY14	FY15
Number of Male Condoms Distributed (000)	36,108	37,561	38,146	34,331	34,331	13,399	11,502
New HIV Diagnoses	3,467	3,175	2,913	*	*	755	690
Patients enrolled in Ryan White with current antiretroviral (ARV) prescription at last assessment (%)	N/A	83.0%	87.0%	90.0%	90.0%	87.9%	88.2%

The Department distributes condom products citywide, targeting communities that carry the heaviest burden of HIV. DOHMH reallocated resources toward the promotion of new HIV prevention technologies, Pre- and Post-Exposure Prophylaxis, during the first four months of Fiscal 2015, which reduced resources available for condom distribution. The NYC Condom Availability Program reduced distribution of its condom products citywide by 14.2 percent in the first four months of Fiscal 2015 compared to the same period in Fiscal 2014. Despite this reduction in overall distribution, condom availability to communities with the highest prevalence of HIV remained stable. HIV diagnoses continue to decrease as a result of new treatment and prevention technologies.

Council Initiatives

HIV/AIDS Communities of Color (Prevention & Education). This allocation of \$100,000 enhances the \$1.125 million baselined funding to address the disproportionate number of AIDS cases among communities of color and women. This funding is primarily directed to community-based organizations which demonstrate an ability to engage these vulnerable populations, raise awareness of the disease and thereby help lower the rate of HIV/AIDS amongst communities of color and women. Public Health Solutions and Community Resource Exchange, Inc. administer the contracts to a number of organizations.

Disease Prevention & Treatment

The Department safeguards the health of New Yorkers through the identification, surveillance, treatment, control and prevention of infectious diseases and protects the health of citizens during emergencies. The Bureau of Communicable Disease performs a range of activities, from investigating disease outbreaks and individual cases of disease, to monitoring drug resistance patterns for select diseases. In cooperation with other emergency response agencies, the Bureau operates a comprehensive surveillance system to improve the City’s ability to detect and respond to the release of a biological agent.

The Bureau’s Sexually Transmitted Disease Control Program promotes healthy sexual behavior to reduce the impact of Sexually Transmitted Diseases (STDs) in New York City. The Department’s Bureau of Immunization works to prevent the occurrence and transmission of diseases through promoting immunization of children and adults.

The Department’s Bureau of Tuberculosis Control provides direct patient care, education, surveillance and outreach to reduce the incidence of Tuberculosis (TB). The Bureau offers free evaluation and treatment for tuberculosis at five separate Chest Center locations.

The Department’s Public Health Laboratory provides state-of-the-art laboratory services to identify and investigate infectious diseases, including rapid testing for bioterrorist agents. The Laboratory performs tests for conditions such as rabies, West Nile virus, and certain environmental exposures not offered by commercial laboratories. It is also the City’s largest HIV testing laboratory.

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

**Continuation from previous page*

The Fiscal 2016 Preliminary Budget includes \$57.2 million for Disease Prevention and Treatment, which has been decreased by \$9.4 million or 14 percent since Adoption. Spending for the Disease Prevention and Treatment program area represents four percent of total proposed Department spending for Fiscal 2016. The total decrease in funding since adoption is driven by technical adjustments in federal grants to align the agency's budget with current levels of funding. These grant alignments include reductions of \$3.6 million for immunizations and \$8.7 million for tuberculosis. Headcount for this program area is proposed to decline by 67 positions from 709 at Fiscal 2015 Adoption to 642 for Fiscal 2016.

Financial Plan Actions

- **Ebola Rapid Response.** The Preliminary Plan includes \$1.4 million in Fiscal 2016 and the outyears for a dedicated team of professionals at DOHMH that will be available to assist during any public infectious disease outbreak. The plan boosts headcount by thirteen positions. The new staff will be tasked with immediate response during an infectious disease outbreak, which includes community engagement, liaison with the Center for Disease Control (CDC) and other activities. The coordination that DOHMH senior staff organized during the Ebola outbreak highlighted the need for a team ready to provide this service. Below are the thirteen positions, with civil service titles, salary and responsibility. It is important to note that twelve of the thirteen positions are currently filled.
 - **2 Medical Epidemiologists**, (Agency Medical Director IV) \$165,000 -- Provide 24/7 response and clinical guidance for Ebola cases and other infectious agents and coordinate the Department's on-call system to ensure staffing is available.
 - **2 Medical Epidemiologists**, (Agency Medical Director IV), \$165,000 -- Develop, manage and train internal and external stakeholders on guidelines and protocols for infection control of Ebola and other communicable diseases.
 - **6 Community Coordinators**, \$50,000 each -- Disseminate public health information to community stakeholders and the public.
 - **1 Laboratory Outreach and Training Coordinator**, (City Research Scientist III), \$93,000 -- Assess capacity of hospital and clinics to handle infectious agents,

develop guidelines, protocols, and training for hospitals and clinics to ensure compliance with federal, state, and local lab requirements.

- **1 Laboratory Response Administrator**, (Health Services Manager II), \$97,000 -- Manage financing of supplies for functioning of “rapid response” teams and other lab functions.
- **1 Laboratory Preparedness Coordinator**, (City Research Scientist IV A), \$103,000 -- Coordinate response activities for the Public Health Laboratory in handling the rapid response to Ebola and other emerging infectious agents, training and proficiency maintenance for all technical staff for testing and safety.

Council Initiatives

Callen Lorde Health Center This allocation of \$150,000 enhances the \$350,000 baselined funding to support the provision of comprehensive care and treatment for four specific areas for uninsured patients: women’s health; screening and treatment of sexually transmitted infections, including HIV/AIDS; adolescent services; and senior services.

Hepatitis B/C Prevention This allocation of \$750,000 funds the training of local health providers to test for Hepatitis B and C; outreach and screening by DOHMH and local organizations to encourage testing for Hepatitis; and to provide linkages to culturally competent care for those diagnosed with Hepatitis B or C.

Performance Measures

Performance Indicators	Actual			Target		4-Month Actual	
	FY12	FY13	FY14	FY15	FY16	FY14	FY15
Syphilis cases	903	1104	1191	*	*	400	414
New tuberculosis cases (CY) (preliminary)	689	651	656	*	*	233	182
Children in the public schools who are in compliance with required immunizations (%)	99.1%	99.1%	99.2%	99.0%	99.0%	96.3%	92.1%
Children aged 19-35 months with up-to-date immunizations (%)	66.4%	70.1%	72.1%	74.0%	75.0%	70.7%	72.2%
Seniors aged 65+, who received a flu shot in the last 12 months (%) (CY)	67.4%	61.8%	66.8%	69.0%	72.0%	N/A	N/A

New Tuberculosis Cases

During the first four months of Fiscal 2015, new tuberculosis (TB) cases decreased by 22 percent compared to the same period in Fiscal 2014. The Department partners with community stakeholders in high-risk immigrant populations to promote TB awareness and accessibility to City chest centers, which provide care and case management for cases, infected contacts and others who are at-risk of progressing to active TB. To ensure timely diagnosis, continuity of care and case management, DOHMH works with healthcare providers across the City to provide training, education and medical consultation, particularly to those who serve high-risk populations.

Children in the Public Schools Who Are In Compliance With Required Immunizations

Effective July 1, 2014, there were changes made to the New York City school immunization requirements to bring them into alignment with the recommendations of the Advisory Committee

on Immunization Practices. These changes affected the number of vaccine doses and the spacing intervals between doses required for a child to be considered compliant, which contributed to the lower compliance seen in the first four months of Fiscal 2015 compared to Fiscal 2014.

Emergency Preparedness and Response

The Office of Emergency Preparedness and Response works with other agencies to prepare for the detection and establish a response plan in case of a bioterrorist event (the intentional use of infectious biological agents, or germs, to cause illness) in New York City. The Office has established a comprehensive surveillance system to improve its ability to detect and respond to the release of a biological agent, and is continuously looking for any indication of bioterrorism in the City by regularly working with all healthcare providers to monitor any unusual disease clusters. Additionally, several surveillance systems are in place to quickly detect an increase in unusual illnesses, including monitoring of 911-ambulance calls and emergency department visits. The response plan includes coordinating with OEM and other City, State, and federal agencies; alerting hospitals and the medical care community; communicating with the public; and ensuring that appropriate medical care and prevention services are provided.

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

The Fiscal 2016 Preliminary Budget includes \$17 million for the Office of Emergency Preparedness and Response which is \$4.5 million or 35 percent, more than the budget at Adoption and represents less than two percent of total proposed Department spending for Fiscal 2016. The increase in funding for this program area is driven by increases in City funds and realignments in federal grants. The grant alignments include \$1.25 million for the Healthcare Emergency Program, \$1 million from Homeland Security XII and \$130,000 from the Public Health Emergency program in the outyears.

Financial Plan Actions

- Post Emergency Canvassing Operation (PECO).** The Preliminary Plan includes \$3.9 million in Fiscal 2016 and \$2.5 million in the outyears to create incident management teams and outreach/preparedness material. These new initiatives, part of the City’s new comprehensive disaster plan, are a result of a settlement reached by the City and disability rights advocacy groups in October 2014. The settlement was reached in response to a ruling in November 2013 that found the City failed to provide meaningful emergency preparedness programs and services for people with disabilities.

As part of this comprehensive plan, the City is mandated to have a fully operational Post-Emergency Canvassing Operation where canvassers go door-to-door after a disaster to assess needs and request critical resources for people with disabilities (e.g. food, water, electricity, medical care, and medical equipment) by August 2017. This funding will support nine positions that will provide these services. Below is a timeline for the development of these services.

Deliverables	Due Dates
Develop operational plan for small-scale canvassing	1-Mar-15
Create city agreement for city staff participation in canvassing and an Incident Management Team	30-Apr-15
Develop initial training for City staff for canvassing and Incident Management Teams by Coastal Storm season	31-Jul-15
Create an electronic platform for citywide canvassing	31-Jul-15
Create a Sector-based hub system which partners with community groups for canvassing	31-Jul-16
Create ability to query and report on known populations of persons with disabilities and access and functional needs	31-Jul-16
Create fully functional Incident Management Team and Staffing capacity for large-scale canvassing	31-Jul-17
Complete exercises to test components of the plan and the fully completed plan with City staff and community groups serving and representing people with disabilities	31-Jul-17

Environmental Health

The Department conducts surveillance of environmental-related disease, assesses risk from exposure to potential environmental and occupational hazards, inspects child care facilities, food service establishments and other permitted entities to ensure compliance with regulations, responds to complaints of environmental and occupational exposures, and educates the public and health care providers on environmental and occupational illnesses.

*The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.

The Fiscal 2016 Preliminary Budget includes approximately \$84.4 million for Environmental Health, reflecting an increase of \$1.9 million or two percent since Adoption. This budget also represents nearly five percent of total proposed Department spending for Fiscal 2016.

Financial Plan Actions

- **Animal Care & Control (AC&C) Fundraising.** The Preliminary Plan includes \$258,000 in Fiscal 2015 and Fiscal 2016 for the Animal Care & Control to hire one development staff who will work to secure funds from private donors, special events, grants and other sources of fundraising. This position, salaried at \$162,000, will work to increase AC&C's fundraising prowess by increasing grant awards, organizing special fundraising events, overseeing direct mail programs and other forms of development. Funding is only included in Fiscal 2015 and Fiscal 2016 as the Department expects AC&C to secure funds to support this position.
- **Child Care Enhanced Oversight.** The Preliminary Plan includes \$656,000 in Fiscal 2016 and the outyears to add twelve staff to target low performing group child care sites that have issues with violations and other needs. DOHMH will focus on approximately 800 out of 2,200 licensed providers. These twelve positions, all City Research Scientists, will each have a portfolio of ten sites and they will work to address issues with violations, complaints and staff terminations and turnover. The top four most common issues that the Department will target include complaints, lost children, staff turnover, and violations.
- **Small Business First.** The Preliminary Plan includes \$468,000 in Fiscal 2016 and \$122,000 in the outyears for Small Business First (SB1), launched by Mayor de Blasio in July 2014. This initiative is an inter-agency initiative led by the Mayor's Office of Operations and the Department of Small Business Services (SBS), working to change the way government interacts with small businesses by improving the City's regulatory environment. Each agency involved with SB1, including DOHMH, is critical to the successful implementation of the program as a whole. All agencies must provide support and high-quality services to small businesses.
 - For DOHMH, this funding will allow the agency to introduce plain language guidelines for the top three business processes: child care, mobile food vending, and the licensing and permitting processes and translate these guidelines into multiple languages.

Council Initiatives

Anti-Gun Violence Initiative – Community Based Programs. This allocation of \$1.59 million enhances the \$2.39 million baselined funding to support a wide range of anti-gun violence programs, including the crisis management system and provides operational support and oversight of community-based providers.

Childhood Blood Lead Levels - New cases among children aged 6 months to less than 6 years with blood lead levels greater than or equal to 10 micrograms per deciliter	1,049	844	776	*	*	331	370

Day Care Inspections

A 19 percent decline in the total number of day care inspections reflects the deferred inspection of State-licensed day care facilities. The substantial workload of inspecting the new and expanded Universal Pre-K sites is not reflected in these numbers, because no children were yet present onsite. There are now additional inspection staff onboard and it is expected that the Department will meet its inspection goals, which include 100 percent of all City-licensed facilities each year and at least 50 percent of all State-licensed facilities within the calendar year.

Rat Indexing

During the first four months of Fiscal 2015, several new neighborhoods were indexed for rats, which resulted in a slight increase in the proportion of initial inspections with active rodent signs. These baseline findings typically find fewer compliance inspections to be rat free because property owners are still learning how to treat for rats. DOHMH expects the percent of properties that are rat free to increase with successive rounds of indexing.

Dog Licenses

A new online dog licensing data system was launched in September, which temporarily delayed renewal notifications and reporting for the issuance of new licenses. The new system now allows for multi-year licensing and has streamlined the licensing process.

Childhood Blood Lead Levels

During the first four months of Fiscal 2015, 370 children (aged 6 months to less than 6 years) were newly identified with blood lead levels of 10 mcg/dL or greater, an increase from the 331 children identified in the same period in Fiscal 2014. The number of new cases remains near historic lows, despite this increase. Four-month Fiscal 2015 performance shows an improvement of nearly 50 percent compared to the same period in Fiscal 2011 when 680 new cases were identified.

Epidemiology

The Epidemiology Division provides timely, systematic, and ongoing collection, analysis and dissemination of data to monitor health trends and assist in the development of appropriate interventions. The Department also registers, processes, certifies, analyzes, and issues reports of births, deaths, and spontaneous and induced terminations of pregnancy, and coordinates public health training and education initiatives for agency staff and health professionals throughout the City.

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

The Fiscal 2016 Preliminary Budget includes \$12.7 million for Epidemiology which is \$10,000 or less than one percent less than the budget at Adoption and represents less than one percent of total proposed Department spending for Fiscal 2016. The change in funding is driven by federal grant adjustments, offset by increases in City funds and other categorical funds.

Financial Plan Actions

- **Child Health Surveillance.** The Preliminary Budget includes \$1.1 million to support an annual child health survey that will enhance the Department's capacity to monitor and evaluate trends in child health risk factors and outcomes. This funding will cover two city research scientist positions that will work to collect new population-based data on child health. Activities include design and construction of data system, as well the creation of surveys, questions, sampling pools, and data sharing policies.

General Administration

This program area includes the Commissioner's office and all other agency-wide administrative services, including management information and analysis, management planning, finance, personnel, labor relations, general services, data processing, general counsel, public information and operations site support, which includes security and custodial services.

*The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.

The Fiscal 2016 Preliminary Budget for the General Administration program area is \$106.5 million, which is \$5.1 million or five percent more than the budget at Adoption. The General Administration program area comprises 12.5 percent of total proposed Department spending for Fiscal 2016.

Health Care Access & Improvement - Correctional

The Bureau of Correctional Health Services at the DOHMH works to improve the medical, dental, mental health care, and discharge planning services provided to inmates within the eleven NYC jails. Working collaboratively with the Department of Correction, these team members measurably improve the health of over 80,000 people who are incarcerated in City jails annually. Funding to Corizon, the City's contracted provider for health services in correctional facilities, is included in the Bureau's budget.

Health Care Access & Improvement - Correctional

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

The Fiscal 2016 Preliminary Budget includes \$201 million for the Bureau of Correctional Health which is \$12.1 million or nearly seven percent, more than the budget at Adoption and represents 14 percent of total proposed Department spending for Fiscal 2016.

Financial Plan Actions

- **Discharge Planning.** The Preliminary Plan includes \$1.7 million in Fiscal 2016 and \$2.3 million in the outyears for 28 positions to aid in the discharge planning for individuals leaving Rikers Island. Staff will be based in Department of Correction (DOC) jail facilities and will be tasked with the development of a discharge plan for inmates leaving Rikers Island. This expansion of discharge planning is intended so that 50-60 percent of those released will go back to their community with a plan, with only 13 percent currently receiving these services. Inmates with a chronic health condition or those with a substance abuse history will receive services.

In terms of linkages with community-based organizations, DOHMH is working to identify contracted programs appropriate to work with clients. DOHMH is also working with

Health Homes to identify clients eligible for care coordination post release. See Appendix C for current providers used to serve HIV patients, including those with substance use issues.

Funds allocated in Fiscal 2015 are for half the fiscal year; however, it is likely that there may be some underspending as a result of delays in DOHMH hiring. Finally, prior to this new spending, DOHMH baseline spending for discharge services had been approximately \$10 million.

- Enhanced Supervision Housing (ESHU).** The DOHMH proposes to spend \$2.1 million in Fiscal 2015 and \$3.8 million in Fiscal 2016 and outyears for health and mental health staff in new enhanced supervision housing units (ESHU) at Rikers Island. The ESHU will house patients that DOC determines to be “dangerous” or “at risk” for violence for 17 hours a day based on predictive measures developed by DOC. The ESHU will comprise five 50-bed units (two units in the George R. Vierno Center and three units in the Otis Bantum Correctional Center) for a total enhanced supervision housing capacity of 250 beds. The proposed staffing plan includes six mental health clinicians, one supervising psychiatrist, four art therapists, six nursing staff, four pharmacy technicians, and three physician assistants. The table below shows average salaries for all positions.

Contract PS Title	Average Salary
Mental Health Clinician	\$67,486
Sr. Psychiatrist	\$184,144
Registered Nurse	\$85,696
Physician's Assistant	\$97,644
Pharmacy Tech	\$44,824
Art Therapist	\$53,560

- Pre-Arrestment Screening.** The November Plan includes \$418,000 in Fiscal 2016 and the outyears to facilitate the screening for health and mental health needs for individuals arraigned in Manhattan. This initiative is a result of a report released in December 2014 from the Mayor’s Taskforce on Behavioral Health and Criminal Justice that lays out an action plan that involves several City agencies to reduce crime and reduce the number of people with behavioral issues cycling through the criminal justice system.

This pilot program, contracted to Vera Institute of Justice, will provide assessment and screenings to flag individuals with physical and mental health needs for possible diversion to services rather than incarceration. This program will place a nurse practitioner and other professionals in Manhattan to assess the needs for referrals to appropriate care and alternative programs and/or mental health services for those who qualify.

Health Care Access & Improvement

The Department, through its Division of Health Care Access and Improvement, promotes improvements in population health through supporting high quality health care services in New York City. As of February 2012, 64 percent of the State's two million enrolled Medicaid managed care population resides in New York City. The Division's Health Insurance Services enrolls families into health insurance; works to improve the quality of health care offered through Medicaid managed care organizations, and promotes appropriate health care utilization and preventive health behaviors. The Division also provides information technology support services and runs a Primary Care Information Project (PCIP) that supports the adoption and use of prevention-oriented electronic health records among primary care providers in New York City's underserved communities. The Division also includes funding for the Bureau of Primary Care Access and Planning (PCAP), which is tasked specifically with devising and implementing policy, program, and research interventions that maximize health insurance coverage and reduce barriers to health care access for vulnerable populations in New York City.

The Fiscal 2016 Preliminary Budget includes \$21.8 million for the Health Care Access and Improvement which is nearly \$9 million or 70 percent, more than the budget at Adoption and represents less than two percent of total proposed Department spending for Fiscal 2016. Although

the Preliminary Fiscal 2016 budget is significantly greater than the Adopted Fiscal 2015 Budget, it is just \$965,000 more than the current budget for Fiscal 2015. This growth is attributable to receipts of federal and State grants.

- Health Clinic Expansion.** The Preliminary Budget includes \$8.2 million for the planning and financial support for new community-based health clinics. While the details are still being determined, it is expected that funding will go to six clinics that are part of a larger push to reduce health inequalities in certain neighborhoods. DOHMH will procure these services through a competitive process that will require providers to adhere to a model similar to Federally Qualified Health Centers (FQHCs). FQHCs must serve an underserved area or population, offer a sliding fee scale, provide comprehensive services, have an ongoing quality assurance program, and have a governing board of directors.

Health Promotion & Disease Prevention

The Department, through its Division of Health Promotion and Disease Prevention, works to promote health, prevent disease and advance health equity among the people of New York City. The Division has five separate bureaus: Bureau of Chronic Disease Prevention and Control; Bureau of District Public Health Program; Bureau of Maternal, Infant and Reproductive Health; Bureau of School Health; and Bureau of Tobacco Control. Each bureau is reflected by a single program area in the budget.

The Bureau of Chronic Disease Prevention and Control spearheads programs and policy initiatives to reduce the burden of heart disease, stroke, cancer, diabetes and asthma. The Bureau of District Public Health Program directs resources, programs and attention to high-need neighborhoods in the South Bronx, East and Central Harlem, and North and Central Brooklyn to reduce health inequalities. The Bureau of Maternal, Infant and Reproductive Health works to promote sexual and reproductive health, and prevent teen pregnancies. The Bureau of School Health works with the Department of Education to deploy school nurses and promote the health of NYC's 1.1 million school-aged children. The Bureau of Tobacco Control works to reduce tobacco-related deaths and illnesses through five main strategies—taxation, legislation, cessation, public education, and evaluation and monitoring.

*The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.

The Fiscal 2016 Preliminary Budget includes \$131.7 million for Health Promotion and Disease Prevention, reflecting an increase of \$8.9 million or seven percent since Adoption. This budget represents nine percent of total proposed Department spending for Fiscal 2016. The change in funding is a function of increases in City, State, federal and intra city funds.

Financial Plan Actions

- Language Development Campaign.** The Preliminary Plan includes \$1 million in Fiscal 2016 and outyears for a media campaign to encourage parents throughout the city to talk, read, and sing to their babies to promote brain development. This initiative is part of the agency’s renewed focus on early childhood in alignment with the priorities identified in the Children’s Cabinet, a multi-agency initiative created by Mayor Bill de Blasio to bolster communication among City agencies and develop strategies for a holistic approach to a child’s safety and wellbeing.

Funding will add one staff and will focus on transit ads, videos, digital ads, and posters that will be available in English and Spanish. Through messaging in various venues (subway, buses, television, etc.) and across social media platforms, DOHMH hopes to increase awareness of the importance of engaging babies in “conversation,” starting at birth. Exposure to lots of words early in life leads to better early language skills, which is highly predictive of later literacy and success in school.

Strategy for this campaign includes radio, television, mass transit (subway/bus shelter ads) and posters placed in check cashing facilities, WIC centers, day care centers and other venues where parents of young children gather. DOHMH will be working with ethnic media and through their press office will disseminate press releases to a wide array of media outlets, including ethnic media. The campaign will be available in Spanish and promoted through Spanish-speaking outlets. DOHMH plans to assess the need for campaign materials in other languages (such as Chinese, Russian, and French) and if the need exists, promote accordingly.

Council Initiatives

Infant Mortality Reduction. This allocation of \$300,000 enhances the \$2.5 million baselined funding to promote women’s health before, during and after pregnancy and work in areas with the highest infant mortality rates to improve maternal and child health outcomes through a network of community-based providers offering a range of interventions: outreach, referrals, workshops, case management and peer education.

Performance Measures

World Trade Center Program

Funding in this program area is for a comprehensive and confidential health survey of those most directly exposed to the events of 9/11. This allows health professionals to compare the health of those most exposed with the health of the general population. Funding in this program area is also used for mental health services for World Trade Center responders.

**The difference of Fiscal 2015 Adopted Budget compared to Fiscal 2016 Preliminary Budget.*

The Fiscal 2016 Preliminary Budget for World Trade Center-related programs is \$25 million, which is roughly \$4.6 million or 22 percent, more than the budget at Adoption. World Trade Center-related Programs comprises less than two percent of total proposed Department spending for Fiscal 2016. The change in funding is driven solely by federal grant adjustments needed to align the budget with awards.

Capital Program

Capital Budget Summary

The Fiscal 2016 Preliminary Capital Commitment Plan includes \$389.7 million in Fiscal 2015-2018 for the Department of Health and Mental Hygiene (including City and Non-City funds). The DOHMH’s capital budget comprises less than one percent of the City’s total \$44.7 billion Preliminary Plan for Fiscal 2015-2018. The Department’s Preliminary Commitment Plan for Fiscal 2015-2018 is seven percent less than the \$419.2 million scheduled in the Adopted Capital Commitment Plan, a decrease of \$29.5 million.

The majority of capital projects span multiple fiscal years and it is therefore common practice for an agency to roll unspent capital funds into future fiscal years. In Fiscal 2014, the DOHMH committed \$64 million or about 32 percent of its annual capital plan. Therefore, it is assumed that a significant portion of the agency’s Fiscal 2015 Capital Plan will be rolled into Fiscal 2016, thus increasing the size of the Fiscal 2016-2019 Capital Plan.

Preliminary Capital Budget Highlights

- **East Harlem Health Center.** The Department allocated \$9 million in the Preliminary Capital Budget towards the interior renovation for the East Harlem Health Center.
- **Bushwick Health Center.** The Department includes \$9.3 million in the Preliminary Capital Budget towards exterior renovation and interior upgrades for the Bushwick Health Center.
- **Emergency Funding For Various Clinics.** The Department’s Preliminary Capital Budget includes \$158 million for capital needs in various clinics.

Capital Program Goals

DOHMH’s capital program goals are to ensure that Department facilities are in compliance with applicable codes, rules and regulations; to promote effective service delivery by renovating facilities requiring immediate repair and maintaining quality conditions in these facilities; to provide effective service delivery by investing in technology for automation and basic infrastructure; and to meet legal mandates for animal care and control.

2016-2025 Preliminary Ten-Year Capital Strategy

The primary focus of DOHMH’s Preliminary Ten-Year Capital Strategy is to identify, prioritize and support immediate needs for code compliance and other renovations at the City’s public health facilities and technology investments that are essential in providing critical public health services.

- **Laboratories.** The Preliminary Ten-Year Capital Strategy provides \$168.8 million for laboratory improvement and renovation.
- **Facility Rehabilitation and Renovation.** The Preliminary Ten-Year Capital Strategy provides \$71.3 million for the renovation of various City-owned public health facilities, reflecting a commitment to assessing, maintaining, and improving conditions throughout the Department’s facilities portfolio.
- **Information Technology.** The Preliminary Ten-Year Capital Strategy provides \$51.6 million to purchase technology to maintain and improve services. This includes \$22.0 million to gradually replace the Department’s computers and network servers.
- **Office of Chief Medical Examiner.** The Preliminary Ten-Year Capital Strategy provides \$39.8 million for OCME projects, including IT upgrades and laboratory equipment purchases.

Appendix A: DOHMH Budget Actions in the November and the Preliminary Plans

Note: Table below includes budget actions affecting the Agency's mental hygiene and public health functions.
