

## **Background, Methodology**

The Department of Education and the School Construction Authority are required to submit a semi-annual report to the Council concerning air conditioning status during the October 1, 2016 and December 31, 2016 time period.

This report provides information detailing which schools have air conditioning installed, which schools do not have air conditioning installed, which schools have air conditioning installed that are not currently functioning and which schools have had air conditioning installed during the reporting period. All reporting is by building. A school-building crosswalk has been provided.

This report consists of two tabs:

### **A/C Status**

This report includes all DOE main school buildings (i.e., it does not include TCUs, attached structures, mini-buildings, athletic fields, admin buildings). This report does not differentiate the A/C status among schools which are located in the same building. For this report, "classroom" is defined as any room categorized as "regular classroom" in the Principal Annual Space Survey (PASS). The A/C data comes from the 2015-16 PASS Report and has been validated by custodian engineers for every building they oversee.

### **Building\_School Crosswalk**

Lists all schools that are housed in each building.

Building Code	Number of Classrooms				Percent of classrooms with functioning A/C
	Has A/C	Does not have A/C	Has non-functioning A/C	Total number of classrooms
